EXAMINER

SAUNDERS, DAVID A

ART UNIT PAPER NUMBER

1644

DATE MAILED: 03/04/2005

Please find below and/or attached an Office communication concerning this application or proceeding.

Art Unit: 1644

The reply filed on 12/21/04 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

1) In the Quayle action of 10/21/04 the examiner noted that Figs. 1-7 contain polynucleotide and polypeptide sequences. The sequence listing submitted on 12/21/04 has no polynucleotide sequence at all and has no polypeptide sequence as long as that in these Figs.

2) There are no directions to enter any SEQ ID NO identifiers in the specification.

3) There is no mention of any submission of a CRF or request to transfer a CRF.

4) Parent application 09/337,756 has no CRF that has been entered. Even if it did, any CRF of 09/337,756 would be inadequate, because it would not have the sequences of instant Figs. 1-7.

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David A. Saunders, PhD whose telephone number is 571-272-0849. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Chan, can be reached on 571-272-0841. The fax phone number for the organization where this application or proceeding is assigned is 571-272-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
